

Il y a des maladies importantes.

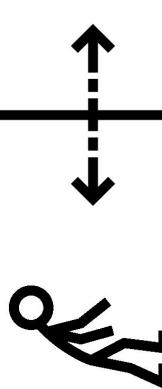

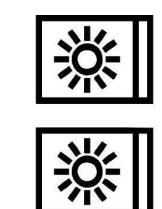

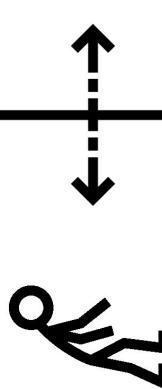

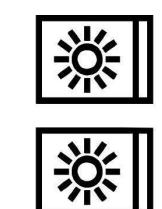

Il y a des vaccins pour ne pas être malade.

Avec tous les vaccins on peut être un peu malade.

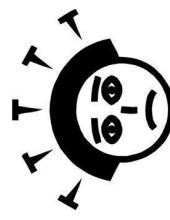

On peut être fatigué pendant quelques jours.

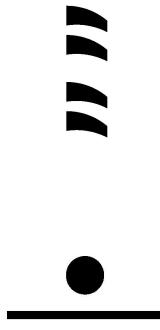

On peut avoir mal à la tête

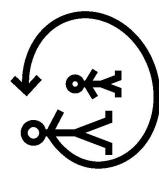

Après COVID-19

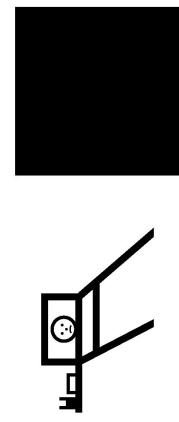

On ne peut pas sortir.

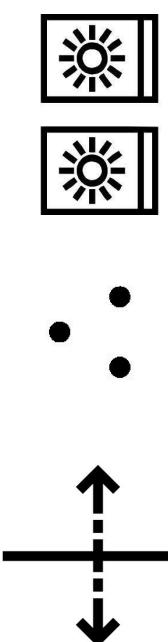

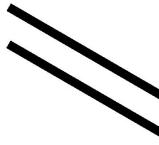

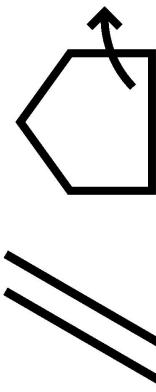

La covid-19 est une maladie importante.

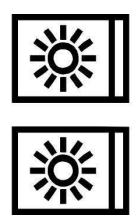

On ne peut pas sortir.

On ne se touche plus.

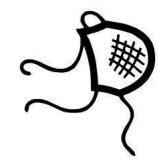

On a peur d'être malade.

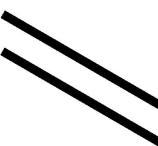

et d'aller à l'hôpital.

au cinéma.

à l'hôpital.

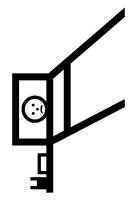

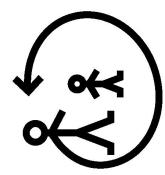

au cinéma.

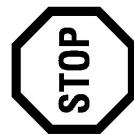

COVID-19

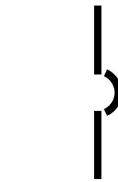

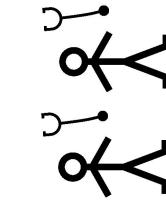

C'est difficile de vivre avec la Covid-19.

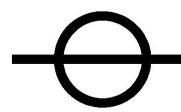

On ne veut plus de ce virus.

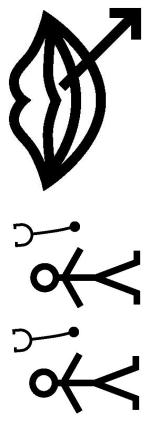

Ça suffit.

Maintenant des docteurs ont fabriqué un vaccin.

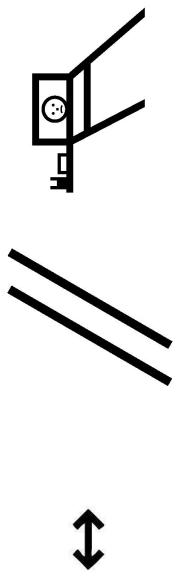

Les docteurs disent:

Avec le vaccin, on peut être un peu malade.

ou pas malade.

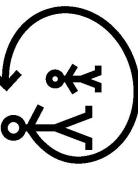

Avec le vaccin peu de gens seront malades.

Avec le vaccin, on peut être un peu malade.

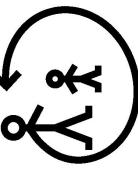

Avec le vaccin peu de gens seront malades.

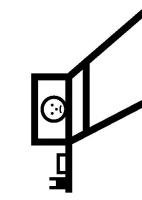

Avec le vaccin, on peut être un peu malade.

Avec le vaccin peu de gens seront malades.

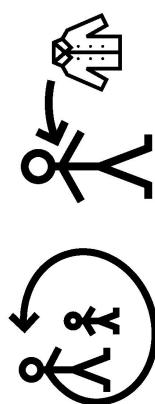

Avec le vaccin, on peut être un peu malade.

Avec le vaccin peu de gens seront malades.

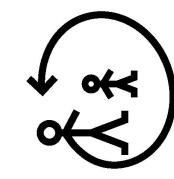

Avec le masque.

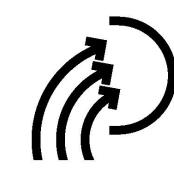

on mettra le vaccin.

On devra attendre le
